RISK FACTORS

The following are certain risk factors of the offering of the Notes of which prospective investors should be aware. The Issuer believes that the following factors may affect its ability to fulfil its obligations under the Notes. All of these factors are contingencies which may or may not occur and the Issuer is not in a position to express a view on the likelihood of any such contingency occurring. Factors which the Issuer believes may be material for the purpose of assessing the market risks associated with Notes are also described below. The Issuer believes that the factors described below represent the principal risks inherent in investing in Notes, but the inability of the Issuer to pay interest, principal or other amounts on or in connection with any Notes may occur for other reasons and the Issuer do not represent that the statements below regarding the risks of holding any Notes are exhaustive. Prospective investors should make their own independent evaluations of all risk factors and should also read the detailed information set out elsewhere in this Prospectus (including any documents incorporated by reference herein) and reach their own views prior to making any investment decision.

The terms defined in "Terms and Conditions of the Notes" shall have the same meaning where used below.

RISKS RELATED TO THE ISSUER AND ITS BUSINESS

The risks described below are those identified by the Issuer that could have an adverse effect on the Issuer's situation. Additional risks, which are either not currently known or not considered likely to materialise, as at the date of this Prospectus may also exist, such additional risks could materially and adversely affect the Issuer's business, financial condition or the results of its operations. The occurrence of one or more of these risks could also have an adverse effect on the Issuer or the Group's situation.

A. Risks linked to the environment in which Foncière des Régions operates

Economic risks

Changes in international and domestic economic conditions (economic growth, interest rates, unemployment rate, calculation method for rent indexation, changes in various indices, etc.) may have a significant negative impact on Foncière des Régions' business and financial results. Foncière des Régions could experience a downturn in demand for corporate real-estate projects, a drop in the occupancy rate and in the leasing or re-leasing price of its real-estate assets, and a decline in the valuation of its portfolio.

Risks linked to changes in the real-estate market

The Issuer operates primarily in the office property sector in France and Italy, the residential sector in Germany and the hotel sector in Europe. The value of the Issuer's portfolio depends on developments in the real estate markets in which the Issuer operates. They may fluctuate, particularly with respect to rental income and property values in light of the supply/demand balance and the overall economic situation. The Issuer may not always be in a position to carry out its rental or leasing strategy, its investments and, where applicable, its disposals at a favourable time or under favourable market conditions. It may be forced to defer such strategy and investments depending on the fluctuations in the property market.

Risks linked to the competition

The Issuer competes with a large number of players in its development activity. Some of its competitors may have more financial resources, or in certain cases, may benefit from better regional or local implementation than the Issuer. Such factors may offer these competitors an opportunity to participate in tender offers for development operations under financial conditions that do not necessarily match the investment criteria the Issuer has set for itself. The Issuer's rental activity is likewise subject to strong competitive pressure given the development of new office buildings located near its existing assets. As a whole, these factors could lead to uncertainty in relation to the Issuer's growth forecasts and have a negative impact on its business, its financial position and its results.

B. Risks linked to the scope and type of business of Foncière des Régions

Risks linked to lease renewals and rental of real estate assets

Upon expiration of existing leases, the Issuer may not be in a position to renew them under equivalent terms or to lease the assets within a reasonable time frame, particularly due to macroeconomic and real estate market conditions. The Issuer may fail to succeed in maintaining its occupancy rate and its rental income, which would have an adverse impact on its financial position and results.

Risks linked to tenants

The Issuer made the strategic choice to build tenant partnerships with key accounts and major companies, which means that revenue is exposed to these partnerships and could be impacted. The Issuer and Immeo-Wohnen (which holds the German residential portfolio of the Group) are also exposed to the risk that their tenants' financial stability deteriorates or that they even become insolvent. Accordingly, insolvency risks may impact the Issuer's earnings.

Risks linked to asset valuation

Foncière des Régions recognises its investment properties at fair value in accordance with the option offered by IAS 40.

The Issuer is therefore exposed to the risk of a change in the value of an asset assessed by appraisers that may occur following an adjustment in the main assumptions used (yield rate, rental value, occupancy rate), and likely to affect the Issuer revaluated net asset.

Risks linked to development of new real estate assets

As part of its development activities performed for its own account or for its subsidiaries, Foncière des Régions is exposed to certain risks: higher than estimated construction costs, construction phases exceeding those initially estimated, technical difficulties or delays due to the failure to obtain administrative authorisations, impossibility of securing project financing at competitive terms, leasing risk, etc.

Acquisition risks

The acquisition of real estate assets or companies that hold them is part of Foncière des Régions' growth strategy. This policy particularly includes the risk of overestimating the expected yield for an acquisition made at an overly high price. The purchased assets could also have latent defects, especially in terms of environmental compliance, or features not covered by the warranties given in the purchase contract due to non-compliance.

Risks linked to international exposure

Foncière des Régions has significant investments in companies that are active in Italy and Germany, and to a lesser extent, in the Netherlands, Portugal, Luxembourg and Belgium. Some of these countries may have particular risk profiles. The economic and political context may be less solid and less stable, and regulatory concerns and entry barriers less favourable. The country risk could have a negative effect on Foncière des Régions' operating income and financial position.

C. Risks associated to the financial markets and the financial position of Foncière des Régions

Liquidity risk

To finance its investments and acquisitions and to refinance any debts that have reached maturity, the Issuer must be in a position to raise significant financial resources. The Issuer runs the risk of experiencing a lack of liquidity if it is unable to raise the necessary resources in the form of equity or borrowing.

Under the SIIC regime, Foncière des Régions is required to distribute a significant part of its profits. Therefore, it relies to a great extent on debt to finance its growth. This type of financing may sometimes not be available at advantageous terms.

The Issuer also incurs the risk of insufficient liquidity to service its debt. A shortage of cash could result in acceleration or prepayment, and if the debt is collateralised, enforcement of the guarantee and, where applicable, the seizure of assets.

For more information, please see paragraph 3.2.2.2 of Chapter 3 of the 2015 Reference Document.

Risks linked to covenants and other undertakings stipulated in certain credit agreements

The credit agreements entered into by Foncière des Régions contain commitments or covenants which the Issuer agrees to uphold, as detailed in part 3 of paragraph 3.2.6.11.4 of the 2015 Reference Document. If Foncière des Régions were to breach one of its financial undertakings and fail to remedy such breach within the contractually stipulated time period, the lenders could demand early repayment of the debt and possibly seize any collateral backing the debt. Consequently, any failure to meet its financial undertakings could have an adverse impact on Foncière des Régions' financial situation, its results, and its flexibility in conducting business and pursuing its development.

Interest Rate Risk

The Issuer's use of debt exposes it to the risk of interest rate fluctuations that may lead to a significant increase in financial expenses if the rates were to rise dramatically. For more information, please see paragraph 3.2.2.3 of Chapter 3 of the 2015 Reference Document.

Financial Counterparty Risk

The use of lines of credit and interest rate hedging contracts from financial institutions could expose Foncière des Régions to the risk of insolvency by the counterparties to such contracts, triggering payment delays or defaults, which could result to a negative impact on Foncière des Régions' results. For more information, please see paragraph 3.2.2.4 of Chapter 3 of the 2015 Reference Document.

D. Legal, fiscal, regulatory, environmental and insurance risks

Risks linked to lease regulations

In France, regulations on commercial leases impose certain restrictions on the lessor. Changes in the regulations that apply to commercial leases, especially with respect to term, rent indexation and caps could adversely impact the valuation of the Issuer's portfolio, results, business activity or financial position.

Risks linked to the SIIC real estate trust status

Foncière des Régions is subject to the Tax System for French Listed Real Estate Investment Trusts (hereinafter **SIIC**), and as such, is not subject to corporate tax. Opting for the SIIC tax regime involves the immediate liability for an exit tax at the reduced rate of 19 per cent., payable over four years, on unrealised capital gains relating to assets and securities of entities not subject to corporation tax. In return for this exemption, the Issuer undertakes to pay 95 per cent. of earnings derived from the leasing of its real estate assets, 60 per cent. of capital gains from disposals and 100 per cent. of dividends received from SIIC-status subsidiaries. These provisions require that other conditions be satisfied upon opting for the regime and/or throughout the entire period covered by the regime.

Health and environmental risks

Health and environmental risks are fully described in Chapter 2 of the 2015 Reference Document.

Changes in environmental regulations applicable to Foncière des Régions as a real estate owner and manager may lead to an increase in its costs, with subsequent repercussions on its results.

In addition, Foncière des Régions' business activities expose it to potential risks such as health (asbestos, legionella) and environmental (particularly ground and subsoil contamination) risks that may tarnish the image and the reputation of the Issuer. These risks may generate significant remediation costs and long additional delays associated with the search for and removal of toxic substances or materials when engaging in development or asset renovation projects. They may also involve the civil and, potentially, the criminal liability of the Issuer.

Risks related to the costs and availability of appropriate insurance cover

The Issuer could face an increase in its insurance policy premiums due to a claim rate deemed significant by its insurers over a given period or sustain losses that may not be fully covered by the insurance in place. The valuation of assets, the business, the financial position and the Issuer's results could be impacted.

Mitigants in relation to the risks related to the Issuer and its business are detailed in Section 1.10 of the 2015 Reference Document (incorporated by reference in this Prospectus).

RISKS RELATED TO THE NOTES

A. General risks relating to the Notes

The Notes may not be a suitable investment for all investors

The Notes may not be a suitable investment for all investors. Each potential investor in the Notes must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor should:

- (i) have sufficient knowledge and experience to make a meaningful evaluation of the Notes, the merits and risks of investing in the Notes and the information contained or incorporated by reference in this Prospectus or any applicable supplement;
- (ii) have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the Notes and the impact the Notes will have on its overall investment portfolio;
- (iii) have sufficient financial resources and liquidity to bear all of the risks of an investment in the Notes, including where the currency for principal or interest payments is different from the potential investor's currency or where the currency for principal or interest payments is different from the currency in which such potential investor's financial activities are principally denominated;
- (iv) understand thoroughly the terms of the Notes and be familiar with the behaviour of any relevant financial markets; and
- (v) be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

Independent Review and Advice

Each prospective investor in the Notes must determine, based on its own independent review and such professional advice as it deems appropriate under the circumstances, that its acquisition of the Notes is fully consistent with its financial needs, objectives and condition, complies and is fully consistent with all investment

policies, guidelines and restrictions applicable to it and is a fit, proper and suitable investment for it, notwithstanding the clear and substantial risks inherent in investing in or holding the Notes. A prospective investor may not rely on the Issuer or the Managers or any of their respective affiliates in connection with its determination as to the legality and suitability of its acquisition of the Notes or as to the other matters referred to above.

Legal investment considerations may restrict certain investments

The investment activities of certain investors are subject to legal investment laws and regulations, or review or regulation by certain authorities. Each potential investor should consult their legal, tax or financial counsel in order to determine whether and to what extent (i) Notes are legal investments for it, (ii) Notes can be used as collateral for various types of borrowing and (iii) other restrictions apply to its purchase of any Notes.

Legality of Purchase

Neither the Issuer, the Managers nor any of their respective affiliates has or assumes responsibility for the lawfulness of the subscription or acquisition of the Notes by a prospective investor in the Notes, whether under the laws of the jurisdiction of its incorporation or the jurisdiction in which it operates (if different), or for compliance by that prospective investor with any law, regulation or regulatory policy applicable to it.

A Noteholder's actual yield on the Notes may be reduced from the stated yield by several costs

When Notes are purchased or sold, several types of incidental costs (including transaction fees and commissions) are incurred in addition to the current price of the security. These incidental costs may significantly reduce or even exclude the profit potential of the Notes. For instance, credit institutions as a rule charge their clients for own commissions which are either fixed minimum commissions or pro-rata commissions depending on the order value. To the extent that additional – domestic or foreign – parties are involved in the execution of an order, including but not limited to domestic dealers or brokers in foreign markets, Noteholders must take into account that they may also be charged for the brokerage fees, commissions and other fees and expenses of such parties (third party costs). In addition to such costs directly related to the purchase of securities (direct costs), Noteholders must also take into account any follow-up costs (such as custody fees). Investors should inform themselves about any additional costs incurred in connection with the purchase, custody or sale of the Notes before investing in the Notes.

Market value of the Notes

The value of the Notes depends on a number of interrelated factors, including economic, financial and political events in France or elsewhere, including factors affecting capital markets generally and the stock exchanges on which the Notes are traded. The price at which a holder of Notes will be able to sell the Notes prior to maturity may be at a discount, which could be substantial, from the issue price or the purchase price paid by such purchaser.

Change of law

The Terms and Conditions of the Notes are based on the laws of France in effect as at the date of this Prospectus. No assurance can be given as to the impact of any possible judicial decision or change to the laws of France or administrative practice or the official application or interpretation of French law after the date of this Prospectus. Furthermore, the Issuer operates in a heavily regulated environment and has to comply with extensive regulations in France and elsewhere. No assurance can be given as to the impact of any possible judicial decision or change to laws or administrative practices after the date of this Prospectus.

Modification and waiver

The conditions of the Notes contain provisions for calling meetings of Noteholders to consider matters affecting their interests generally. These provisions permit defined majorities to bind all Noteholders including

Noteholders who did not attend and vote at the relevant meeting and Noteholders who voted in a manner contrary to the majority.

French insolvency law

Under French insolvency law, holders of debt securities are automatically grouped into a single assembly of holders (the **Assembly**) in order to defend their common interests if a preservation (*procédure de sauvegarde*, *procédure de sauvegarde accélérée* or *procédure de sauvegarde financière accélérée*) or a judicial reorganisation procedure (*procédure de redressement judiciaire*) is opened in France with respect to the Issuer. The Assembly comprises holders of all debt securities issued by the Issuer (including the Notes) regardless of their governing law. The Assembly deliberates on the proposed safeguard (*projet de plan de sauvegarde*, *projet de plan de sauvegarde accélérée* or *projet de plan de sauvegarde financière accélérée*) or judicial reorganisation plan (*projet de plan de redressement*) applicable to the Issuer and may further agree to:

- increase the liabilities (*charges*) of holders of debt securities (including the Noteholders) by rescheduling due payments and/or partially or totally writing off receivables in form of debt securities;
- establish an unequal treatment between holders of debt securities (including the Noteholders) as appropriate under the circumstances; and/or
- decide to convert debt securities (including the Notes) into securities that give or may give right to share capital.

Decisions of the Assembly will be taken by a two-third majority (calculated as a proportion of the debt securities held by the holders expressing a vote). No quorum is required to convoke the Assembly.

The procedures, as described above or as they will or may be amended, could have an adverse impact on holders of the Notes seeking repayment in the event that the Issuer or its subsidiaries were to become insolvent.

For the avoidance of doubt, the provisions relating to the Representation of the Noteholders described in this Prospectus in Condition 9 will not be applicable in these circumstances.

B. Risks related to the market generally

Set out below is a brief description of the principal market risks, including liquidity risk, exchange rate risk, interest rate risk and credit risk:

The secondary market generally

The Notes may have no established trading market when issued, and one may never develop. If a market does develop, it may not be liquid. Therefore, investors may not be able to sell their Notes in the secondary market in which case the market or trading price and liquidity may be adversely affected or at prices that will provide them with a yield comparable to similar investments that have a developed secondary market.

The trading market for debt securities may be volatile and may be adversely impacted by many events

The market for debt securities issued by the Issuer is influenced by economic and market conditions and, to varying degrees, market conditions, interest rates, currency exchange rates and inflation rates in other European and other industrialised countries. There can be no assurance that events in France, Europe or elsewhere will not cause market volatility or that such volatility will not adversely affect the price of Notes or that economic and market conditions will not have any other adverse effect.

Exchange rate risks and exchange controls

The Issuer will pay principal and interest on the Notes in Euro. This presents certain risks relating to currency conversions if an investor's financial activities are denominated principally in a currency or currency unit (the **Investor's Currency**) other than Euro. These include the risk that exchange rates may change significantly

(including changes due to devaluation of Euro or revaluation of the Investor's Currency) and the risk that authorities with jurisdiction over the Investor's Currency may impose or modify exchange controls. An appreciation in the value of the Investor's Currency relative to the Euro would decrease (i) the Investor's Currency-equivalent yield on the Notes, (ii) the Investor's Currency-equivalent value of the principal payable on the Notes and (iii) the Investor's Currency-equivalent market value of the Notes.

Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate. As a result, investors may receive less interest or principal than expected, or no interest or principal.

Interest rate risks

The Notes bearing interest at a fixed rate, investment in the Notes involves the risk that subsequent changes in market interest rates may adversely affect the value of the Notes.

C. Risks related to the particular structure of the Notes

Credit risk

The value of the Notes will also depend on the credit worthiness of the Issuer. If the credit worthiness of the Issuer deteriorates, the value of the Notes may decrease and investors may lose all or part of their investment.

The Notes may be redeemed prior to maturity

In the event that the Issuer would be obliged to pay additional amounts payable in respect of any Notes due to any withholding as provided in Condition 5(b), the Issuer may redeem all outstanding Notes in accordance with such Terms and Conditions.

In addition, the Issuer may, at its option (i) from and including 20 February 2026 to but excluding the Maturity Date, redeem the Notes outstanding, in whole or in part, at par plus accrued interest, as provided in Condition 5(e) of the Terms and Conditions of the Notes; (ii) redeem, in whole or in part, the then outstanding Notes at any time prior to the Maturity Date, at the relevant make whole redemption amount, as provided in Condition 5(d) of the Terms and Conditions of the Notes and (iii) redeem all but not some only of the outstanding Notes in the event that twenty (20) per cent. or less of the initial aggregate principal amount of the Notes remains outstanding, as provided in Condition 5(f).

In particular, with respect to the Squeeze Out Redemption at the option of the Issuer provided in Condition 5(f) of the Terms and Conditions of the Notes, there is no obligation under the Terms and Conditions of the Notes for the Issuer to inform investors if and when the threshold of twenty (20) per cent. of the initial aggregate principal amount of the Notes has been reached or is about to be reached, and the Issuer's right to redeem will exist notwithstanding that immediately prior to the serving of a notice in respect of the exercise of the Squeeze Out Redemption, the Notes may have been trading significantly above par, thus potentially resulting in a loss of capital invested.

The Issuer may choose to redeem the Notes at times when prevailing interest rates may be relatively low. In such circumstances an investor may not be able to reinvest the redemption proceeds in a comparable security at an effective interest rate as high as that of the relevant Notes. The price at which a Noteholder will be able to sell the Notes prior to maturity may be at a discount, which could be substantial, from the issue price or the purchase price paid by such purchaser.

Both the Make Whole Redemption by the Issuer and the Residual Maturity Call Option by the Issuer are exercisable in whole or in part and exercise of the Make Whole Redemption by the Issuer and the Residual Maturity Call Option by the Issuer in respect of certain Notes may affect the liquidity of the Notes in respect of which such option is not exercised

Both the Make Whole Redemption by the Issuer provided in Condition 5(d) of the Terms and Conditions of the Notes and the Residual Maturity Call Option by the Issuer provided in Condition 5(e) of the Terms and Conditions of the Notes are exercisable in whole or in part.

If the Issuer decides to redeem the Notes in part, such partial redemption may be effected by reducing the nominal amount of all Notes in proportion to the aggregate principal amount redeemed.

Depending on the number of Notes in respect of which such option is exercised, any trading market in respect of those Notes in respect of which such option is not exercised may become illiquid.

Purchases by the Issuer in the open market or otherwise (including by tender offer) in respect of certain Notes may affect the liquidity of the Notes which have not been so purchased

Depending on the number of Notes purchased by the Issuer as provided in Condition 5(g), any trading market in respect of those Notes that have not been so purchased may become illiquid.

Exercise of put option or notice of event of default in respect of certain Notes may affect the liquidity of the Notes in respect of which such put option is not exercised or a notice of event of default is not given

Depending on the number of Notes in respect of which the put option pursuant to a Change of Control (as more fully described in Condition 5(c)) is exercised or in respect of which notice of an event of default is given (as provided in Condition 8), any trading market in respect of those Notes in respect of which such put option is not exercised or in respect of which notice of an event of default is not given may become illiquid.

Credit Rating may not reflect all risks

The Notes are rated BBB with a stable outlook by S&P. The rating assigned by S&P to the Notes may not reflect the potential impact of all risks related to structure, market, additional factors discussed above, and other factors that may affect the value of the Notes. A rating is not a recommendation to buy, sell or hold securities and may be revised or withdrawn by S&P at any time.

D. Risks related to Taxation

Potential purchasers and sellers of the Notes should be aware that they may be required to pay taxes or documentary charges or duties in accordance with the laws and practices of the jurisdiction where the Notes are transferred or other jurisdictions. In some jurisdictions, no official statements of the tax authorities or court decisions may be available for innovative financial instruments such as the Notes. Further, a Noteholder's effective yield on the Notes may be diminished by the tax impact on that Noteholder of its investment in the Notes.

Potential investors are advised not to rely upon the tax summary contained in this Prospectus but to ask for their own tax adviser's advice on their individual taxation with respect to the acquisition, holding, sale and redemption of the Notes. Only these advisors are in a position to duly consider the specific situation of each potential investor. This investment consideration has to be read in connection with the taxation sections of this Prospectus.

Each prospective investor should consult its own advisers as to legal, tax and related aspects of an investment in the Notes.

European Financial Transaction Tax (FTT)

On 14 February 2013, the European Commission adopted a proposal for a Council Directive (the **Draft Directive**) for a common FTT in Austria, Belgium, Estonia, France, Germany, Greece, Italy, Portugal, Spain, Slovakia and Slovenia (the **Participating Member States**).

Pursuant to the Draft Directive, the FTT shall apply to financial transactions provided at least one party to the financial transaction is established or deemed established in a Participating Member State and there is a financial institution established or deemed established in a Participating Member State which is a party to the financial transaction (acting either for its own account or for the account of another person), or is acting in the name of a party to the transaction. The FTT shall, however, not apply to (*inter alia*) primary market transactions referred to in Article 5 (c) of Regulation (EC) No 1287/2006, including the activity of underwriting and subsequent allocation of financial instruments in the framework of their issue.

The rates of the FTT shall be fixed by each Participating Member State but for transactions involving financial instruments other than derivatives shall amount to at least 0.1 per cent. of the taxable amount. The taxable amount for such transactions shall in general be determined by reference to the consideration paid or owed in return for the transfer. The FTT shall be payable by each financial institution established or deemed established in a Participating Member State which is a party to the financial transaction, acting in the name of a party to the transaction or where the transaction has been carried out on its account. Where the FTT due has not been paid within the applicable time limits, each party to a financial transaction, including persons other than financial institutions, shall become jointly and severally liable for the payment of the FTT due.

Prospective holders should therefore note, in particular, that any sale, purchase or exchange of the Notes may be subject to the FTT at a minimum rate of 0.1 per cent. provided the abovementioned prerequisites are met. The holder may be liable to itself pay this charge or reimburse a financial institution for the charge, and/or the charge may affect the value of the Notes. However, the issuance of Notes should not be subject to the FTT.

In December 2015, a joint statement was issued by the Participating Member States (excluding Estonia), indicating an intention to make decisions on the remaining open issues by the end of June 2016.

The Draft Directive is still subject to negotiation between the Participating Member States and therefore may be changed at any time.

Prospective holders of the Notes should consult their own tax advisers in relation to the consequences of the FTT associated with subscribing for, purchasing, holding and disposing of the Notes.

(b) Negative Pledge

The Issuer agrees that so long as any of the Notes remains outstanding, it will not create or permit to subsist any mortgage, charge, pledge, lien or other form of encumbrance or security interest which would constitute a *sûreté réelle* or its equivalent under any applicable legislation upon all or part of its business (*fonds de commerce*), assets or revenues, present or future, to secure (i) any Bond Indebtedness (as defined below) other than Securitised Bond Indebtedness (as defined below) or (ii) any guarantee of or indemnity in respect of any Bond Indebtedness (other than Securitised Bond Indebtedness) (whether any such mortgage, charge, pledge, lien or other form of encumbrance or security interest existed before or after the issuance of the Notes)

unless the obligations of the Issuer under the Notes are equally and rateably secured therewith so as to rank *pari passu* with such Bond Indebtedness or the guarantee or indemnity thereof.

This undertaking relates exclusively to the issuance of Bond Indebtedness and in no way affects the Issuer's ability to dispose of its assets or to otherwise grant any security interest over or in respect of such assets in any other circumstances, without prejudice to Condition (3).

For this purpose of the Condition:

- (iii) **Securitised Bond Indebtedness** means any Bond Indebtedness of the Issuer incurred in respect of or in connection with any securitisation or similar financing arrangement relating to assets owned by the Issuer and where the recourse of the holders of such Bond Indebtedness against the Issuer is limited solely to such assets or any income generated therefrom.

3 Restriction on Secured Borrowings

The Issuer agrees that, so long as any of the Notes remains outstanding and except with the prior approval of the General Meeting (as defined under Condition 9) of the Noteholders, the Unsecured Revalued Assets Value (as defined below) shall not be less than the Relevant Debt (as defined below) at any time.

- (v) any outstanding amount of the deferred purchase price of Real Estate Assets (as defined below) where payment (or, if payable in instalments, the final instalment) is due more than one (1) year after the date of purchase of such Real Estate Asset; or
- (vi) any amount raised under any other transaction which is treated in accordance with the relevant accounting principles in the latest non-consolidated or consolidated balance sheet as financial debt (*emprunts et dettes financières*) (or, in the case of such amounts raised after the date of this Prospectus, would have been so treated had they been raised on or prior to such date);

provided that:

- (a) for purposes of computing the outstanding principal amount of any Financial Indebtedness in paragraphs (i) to (vi) above, any interest, dividends, commission, fees or the like shall be excluded save to the extent that they have been capitalised; and
- (b) no amount shall be included or excluded more than once in calculating the amount of principal outstanding in respect of any Financial Indebtedness.

Secured Debt means at any time the aggregate amount of the Financial Indebtedness of the Issuer as shown in, or derived from, the latest audited annual or unaudited semi-annual consolidated financial statements of the Issuer, that is secured by or benefits from a Security Interest over any of the Group's Assets;

Security Interest means any mortgage, charge, pledge, lien or other form of encumbrance or security interest which would constitute a *sûreté réelle* or any other agreement or arrangement having substantially the same economic effect (including, but not limited to, any retention of title, lease or hire-purchase arrangement); and

Unsecured Revalued Assets Value means at any time an amount equal to the Revalued Assets Value less the Secured Debt.

4 Interest

The Notes bear interest at the rate of 1.875 per cent. *per annum*, from and including 20 May 2016 (the **Interest Commencement Date**) payable annually in arrear on 20 May in each year (each an **Interest Payment Date**) and for the first time on 20 May 2017.

The period commencing on, and including, the Interest Commencement Date and ending on, but excluding, the first Interest Payment Date and each successive period commencing on, and including, an Interest Payment Date and ending on, but excluding, the next succeeding Interest Payment Date is called an **Interest Period**.

Notes will cease to bear interest from the date provided for their redemption, unless the Issuer defaults in making due provision for their redemption on said date. In such event, the Notes will continue to bear interest in accordance with this Condition (as well after as before judgment) on the principal amount of such Notes until whichever is the earlier of (i) the day on which all sums due in respect of such Notes up to that day are received by or on behalf of the relevant holder and (ii) the day after the Fiscal Agent has notified the holders of the Notes (the **Noteholders**) in accordance with Condition 10 of receipt of all sums due in respect of all the Notes up to that day.

Interest will be calculated on an Actual/Actual (ICMA) basis. Where interest is to be calculated in respect of a period of less than one (1) year, it shall be calculated on the basis of the number of days elapsed in the relevant period, from and including the date from which interest begins to accrue to but excluding the date on which it falls due, divided by the number of days in such period in which the relevant period falls (including the first but excluding the last day of such period).

5 Redemption and Purchase

The Notes may not be redeemed otherwise than in accordance with this Condition 5.

(a) *Final Redemption*

Unless previously redeemed or purchased and cancelled as provided below, the Notes will be redeemed by the Issuer at their principal amount on 20 May 2026.

(b) *Redemption for Taxation Reasons*

- (i) If, by reason of a change in French law or regulation, or any change in the official application or interpretation of such law, becoming effective after the Issue Date, the Issuer would on the occasion of the next payment due in respect of the Notes, not be able to make such payment without having to pay additional amounts as specified in Condition 7 below, and provided that such obligation cannot be avoided by the Issuer taking reasonable measures available to it, the Issuer may on any Interest Payment Date, subject to having given not more than sixty (60) nor less than thirty (30) days' prior notice to the Noteholders (which notice shall be irrevocable), in accordance with Condition 10, redeem all, but not some only, of the outstanding Notes at their principal amount plus any interest accrued to the date fixed for redemption provided that the due date for redemption of which notice hereunder may be given shall be no earlier than the latest practicable Interest Payment Date on which the Issuer could make payment of principal and interest without withholding or deduction for French taxes.
- (ii) If the Issuer would on the occasion of the next payment in respect of the Notes be prevented by French law from making payment to the Noteholders of the full amount then due and payable, notwithstanding the undertaking to pay additional amounts contained in Condition 7 below, and provided that this cannot be avoided by the Issuer taking reasonable measures available to it, then the Issuer shall forthwith give notice of such fact to the Fiscal Agent and the Issuer shall upon giving not less than seven (7) days' prior

notice to the Noteholders in accordance with Condition 10 redeem all, but not some only, of the Notes then outstanding at their principal amount plus any accrued interest on the latest practicable date on which the Issuer could make payment of the full amount payable in respect of the Notes without withholding for French taxes, or, if such date is past, as soon as practicable thereafter.

(c) *Redemption at the option of Noteholders following a Change of Control*

If at any time while any of the Notes remains outstanding (A) a Change of Control occurs and (B) within the Restructuring Period (i) (if at the time of the Change of Control the Issuer and/or the Notes outstanding have a rating from a Rating Agency) a Rating Downgrade in respect of that Change of Control occurs or (ii) (if at the time of the Change of Control the Issuer and/or the Notes outstanding do not have a rating from a Rating Agency) a Negative Rating Event in respect of that Change of Control occurs (such Change of Control and Rating Downgrade or Negative Rating Event, as the case may be, occurring within the Restructuring Period and, in the case of a Rating Downgrade, not having been cured prior to the expiry of the Restructuring Period, together called a **Put Event**), each Noteholder will have the option (the **Put Option**) (unless, prior to the giving of the Put Event Notice referred to below, the Issuer has given notice of any early redemption in respect of the Notes) to require the Issuer to redeem or, at the Issuer's option, procure the purchase of that Note on the Optional Redemption Date (as defined below). Each Note shall be redeemed or purchased at its principal amount together with (or where purchased, together with an amount equal to) interest accrued to (but excluding) the Optional Redemption Date.

Promptly upon the Issuer becoming aware that a Put Event has occurred, the Issuer shall give notice (a **Put Event Notice**) to the Noteholders in accordance with Condition 10, with a copy to the Fiscal Agent, specifying the nature of the Put Event and the procedure for exercising the Put Option.

To exercise the Put Option, a Noteholder must give notice to the relevant Account Holder, with a copy to the Fiscal Agent in or substantially in the form set out in the Agency Agreement, duly completed and signed on its behalf (the **Put Notice**), on any Business Day falling within the period of forty-five (45) days after a Put Event Notice is given (the **Put Period**). The Put Notice shall include instructions for the transfer of such Noteholders' Notes to the specified account of the Fiscal Agent for the redemption or purchase of such Notes.

The form of the Put Notice shall be available from the Fiscal Agent.

Payment in respect of such Notes will be made on the Optional Redemption Date by transfer to the bank account specified in the Put Notice. A Put Notice once given shall be irrevocable. The Issuer shall redeem or, at its option, procure the purchase of the relevant Notes on the Optional Redemption Date unless previously redeemed or purchased.

For the avoidance of doubt, the Issuer shall have no responsibility for any breakage costs which the Noteholder may incur as a result of or in connection with such Noteholder's exercise or purported exercise of, or otherwise in connection with, any Put Option (whether as a result of any purchase or redemption arising there from or otherwise). The Issuer shall be responsible for any administrative costs e.g. notices etc arising as a result of in connection with any Noteholder's exercise or purported exercise of, or otherwise in connection with, any Put Option.

Rating Downgrade shall be deemed to have occurred in respect of a Change of Control if (within the Restructuring Period) the rating previously assigned to the Notes or to the Issuer by any Rating Agency solicited by the Issuer is (x) withdrawn or (y) changed from an investment grade rating (BBB- or its equivalent for the time being, or better) to a non-investment grade

rating (BB+ or its equivalent for the time being, or worse) or (z) if the rating previously assigned to the Notes or to the Issuer by any Rating Agency solicited by the Issuer was below an investment grade rating (as described above), lowered by at least one full rating notch (for example, from BB+ to BB, or their respective equivalents), provided that the Rating Agency making the reduction in rating announces or publicly confirms or, having been so requested by the Issuer, informs the Issuer and the Fiscal Agent in writing that the lowering was the result, in whole or in part, of any event or circumstance comprised in or arising as a result of, or in respect of, the applicable Change of Control (whether or not the applicable Change of Control shall have occurred at the time of the Rating Downgrade). If the Notes or the Issuer are rated by more than one Rating Agency, a Rating Downgrade shall be deemed to have occurred in respect of a particular Change of Control only if all the Rating Agencies have withdrawn or lowered its rating.

Rating Agency means Standard & Poor's Rating Services, a division of The McGraw-Hill Companies, Inc. and its successors (**S&P**) or any other rating agency of equivalent standing notified by the Issuer to the Noteholders in accordance with Condition 10.

(50%) of the shares or voting rights of the Issuer.

The Optional Redemption Amount will be calculated by the Calculation Agent and will be an amount in Euro rounded to the nearest cent (half a cent being rounded upwards) being the greater of (x) one hundred (100) per cent. of the Principal Amount (as defined below) of the Notes so redeemed and, (y) the sum of the then present values on the Optional Make Whole Redemption Date of (i) the Principal Amount (as defined below) of the Notes and (ii) of the remaining scheduled payments of interest of the Notes for the remaining term of the Notes (determined on the basis of the interest rate applicable to such Note from but excluding the Optional Make Whole Redemption Date), discounted to the Optional Make Whole Redemption Date on an annual basis (Actual / Actual ICMA) at the Early Redemption Rate plus an Early Redemption Margin.

The determination of any rate or amount, the obtaining of each quotation and the making of each determination or calculation by the Calculation Agent shall (in the absence of manifest error) be final and binding upon all parties. Payments of principal and interest in respect of the Notes will be made in Euro by credit or transfer to a Euro-denominated account (or any other account to which Euro may be credited or transferred) specified by the payee in a city in which banks have access to the TARGET System. TARGET System means the Trans European Automated Real Time Gross Settlement Express Transfer (known as TARGET2) System or any successor thereto.

Such payments shall be made for the benefit of the Noteholders to the Account Holders and all payments validly made to such Account Holders in favour of the Noteholders will be an effective discharge of the Issuer and the Paying Agents, as the case may be, in respect of such payments.

Payments of principal and interest on the Notes will, in all cases, be subject to any fiscal or other laws and regulations applicable thereto in the place of payment, but without prejudice to the provisions of Condition 7.

- Strong growth dynamics in German Residential (+20% in rents and +2.6% on a like-for-like basis), driven by the increase in Berlin exposure

Strengthened positions in our strategic locations

The first quarter of 2016 was marked by Foncière des Régions' major efforts to increase its presence in its strategic locations, through secured acquisitions totalling €517 million (€367 million Group Share) for an average yield of 6.3%.

France Offices: acquisitions amounting to €140 million

Foncière des Régions completed the acquisition of the Vinci Group's head office (36,000 m²) in Rueil-Malmaison, one of the most dynamic business districts of Greater Paris, in particular for the premises of large groups (750,000 m² of office space and over 180 companies). The investment (€129 million including fees) is accompanied by a high yield (7.8%) for a 4-year period, prior to fully re-developing the site to offer value-creation potential.

German Residential: acquisitions amounting to €241 million (€168 million Group Share)

The Group continued its development in Berlin with acquisitions totalling €241 million (€168 million Group Share), mainly in the housing sector in the city's central districts. The average yield comes to 4.9% for a rent reversion potential of around 40%.

Hotels in Europe: acquisitions amounting to €136 million (€59 million Group Share)

Foncière des Régions increased its exposure to this category of assets, while continuing its European development. The Group thus increased its stake in Foncière des Murs (to 47.5% vs. 43.1% at end-2015) and will be launching in May a public takeover bid for the remainder of the subsidiary's capital under the same terms (i.e. 1 new Foncière des Régions share for 3 Foncière des Murs shares).

In parallel, the Group actively pushed ahead with investments with its hotel partners, with the acquisition of 5 NH hotels in Germany for €124.8 million (€54 million Group Share, coming into effect in 2017 and 2018) and 4 B&B hotels in Spain for €11.2 million (€5 million Group Share). Moreover, on the strength of its leading European position in this asset class, Foncière des Régions launched Foncière Développement Tourisme, a 50/50 joint venture with Caisse des Dépôts, dedicated to investments in tourist accommodation in France (hotels in holiday resorts, tourist residences, and holiday centres).

Key stage in the acceleration of the strategy in Italy

The first quarter marked the start of a turnaround in an improving economic climate, a major step in the achievement of the year's objectives:

- Foncière des Régions secured 28% of its occupancy rate improvement plan in Italy, which consists in recovering €14 million in rental income and €16 million in cash flow (respectively €7 million and €8 million Group Share) on vacant assets, in return for a capex program of €60 million (€30 million Group Share). The Group signed new leases on a total of 14,679 m², representing €4.2 million in rental income, including 6,530 m² on Via Messina in Milan (€1.2 million in rental income). Excluding Telecom Italia, its portfolio's occupancy rate rose 3 points to 89%.
- In its development pipeline, the Group pre-leased 16,000 m² of office space (and an option of 3,000 m² of additional space) to Fastweb in the first building (totalling 19,000 m²) of Symbiosis. This transaction confirms the quality of this business district in the south of Milan, located in an ideal setting opposite the new Prada foundation and at the crossroads of the city's historic centre, Milan-Linate airport and Bocconi University.
- Furthermore, Foncière des Régions announced the appointment of Alexei Dal Pastro as General Manager of its Italian subsidiary Beni Stabili. With over 15 years' experience in real estate, Alexei Dal Pastro was until now Head of Fund Management and Asset Management and member of the Management Board at Prelios SGR, one of Italy's leading real estate fund management companies, with €4 billion in managed assets including 50% office space.

Rental income at the end of March 2016: €139.9 million, an increase of 5.5%

The Group's rents were boosted by the delivery of numerous assets in the France Offices segment in 2015 (105,000 m²) and stronger positions in the German Residential segment. Rental income was €139.9 million Group Share at the end of March 2016, an increase of 5.5%.

On a like-for-like basis, rental income dropped slightly (-0.4%). The revenue benefited from a good performance of the German Residential segment (+2.6%, of which +4.7% in Berlin) and from the first positive impacts of the improvement of the occupancy rate (+3 points) on the non Telecom Italia portfolio in Italy (+1.3% on a like-for-like basis). This was offset by the impact of the renegotiation with Telecom Italia in 2015 (leases lengthened by 9 years, to 15 years firm, in return for a 6.9% reduction in rents). In the Hotel segment (-1.5% in rents, and a slight rise of 0.5% excluding AccorHotels rents), revenues were weighed down by the

impact of the terrorist attacks of November 2015 which affected the variable rental income from AccorHotels. The trend started to improve in March and the second part of the year should benefit from a better economic situation, as well as the Euro 2016 football tournament which will take place in France.

Press release published on 28 April 2016

Following the General Meeting, which was held in Paris on 27 April 2016, the Board of Directors of Foncière des Régions welcomed two new members: Patricia Savin and Catherine Soubie. With these appointments, women occupy 40% of the seats on Board of Directors of Foncière des Régions, and 60% of its members are independent.

A member of the Paris Bar, Patricia Savin is a Doctor of private law and a graduate of IHEDN (economic intelligence session). She is a partner with the law firm DS Avocats, and serves as the co-chair of the Environmental and Sustainable Development Department. Chair of the Orée Association and the Environmental and Sustainable Development Commission of the Paris Bar Association, Patricia Savin is frequently consulted by the Ministries of Ecology and Justice on laws and drafts under discussion (environmental charter, environmental damage, etc.).

Since 2010, Catherine Soubie has been Managing Director with Barclays, responsible for Investment Banking in France, Belgium and Luxembourg. A graduate of the ESCP, Catherine Soubie began her career with Lazard

in London, then relocated to its Paris office. She then held a number of positions at Morgan Stanley in Paris, before becoming Deputy General Manager of Rallye.

ACQUISITION OF AN OFFICE COMPLEX LET TO VINCI IN THE HEART OF THE GREATER PARIS REGION

Press release published on 21 April 2016

Foncière des Régions has purchased the head office of the Vinci Group in the heart of one of the most dynamic business districts of Greater Paris, Rueil-sur-Seine in Rueil-Malmaison.

The offices complex is located next to the Rueil-Malmaison station of the RER (the Paris regional rapid transit system) and is visible from the A86 motorway. It currently comprises 36,000 m² of floor space split between three independent buildings, ideally located in the heart of Rueil-sur-Seine, and 978 car parks.

With 750,000 m² of office space occupied by over 180 companies, Rueil-sur-Seine is one of the most dynamic and attractive business poles in Greater Paris for large corporate groups to locate their premises.

With this investment (of around €129 million, rights included), Foncière des Régions has guaranteed rental income for 4 years (€10 million per year, representing an immediate yield of 7.8%). The group will take advantage of this period to define the redevelopment of the site to be implemented after the departure of the Vinci Group.

Foncière des Régions will thus deliver a new flexible and innovative building complex by 2022, corresponding to best market standards. This will improve asset quality and strengthen the group's exposure to an area popular with key accounts.

"With this acquisition, Foncière des Régions again illustrates its ability to position itself in complex real estate transactions, in which it can utilise its know-how as an integrated real estate operator to generate value over the duration of the project", emphasised Olivier Estève, Deputy General Manager of Foncière des Régions.

This move also strengthens the group's territorial coverage of the major services areas in Paris such as Saint-Denis (delivery of Green Corner in 2015), Levallois-Perret (acquisition of Oméga B at the end of 2015, development of the Thaïs complex under way), Issy-les-Moulineaux (redevelopment and extension of the Edo complex in progress) and Paris-Gare-de-Lyon (ongoing redevelopment of the Traversière complex). The attraction of these areas is characterised by their excellent rental income/quality relationship and very good road and public transport connections (Paris underground/RER).

BERLIN: €240 MILLION IN NEW ACQUISITIONS

Press release published on 14 April 2016

Foncière des Régions continues its development in Berlin and reinforces its growth potential in the German Residential segment with acquisitions of assets totalling €241 million (€146 million Group share), 90% located in the centre of Berlin.

Through its subsidiary Immeo SE, Foncière des Régions acquired high-quality buildings for €165 million (€96 million Group share) consisting of 945 fully renovated housing units (86% of the assets in terms of value), mainly in sought-after localities of central Berlin such as Mitte, Friedrichshain, and Prenzlauerberg.

The Group also acquired a real estate complex comprising 117 housing units (19% in terms of value), 10,700 m² of office and retail space (40% in terms of value) and a 238-room 4-star Novotel hotel. This real estate worth €76.4 million (€50 million Group share), is located in the heart of the Mitte district (Fischerinsel 12).

The immediate average yield of these acquisitions comes to 4.9% (4.6% for the residential part) for prime locations, which conceal an average rental reversion potential of 40% (of which 50% for the housing units).

Following the 2015 investments totalling over €870 million (€529 million Group share) in the German Residential segment, Foncière des Régions has once again shown its capacity to identify and carry out transactions under attractive conditions, despite the highly competitive market.

These acquisitions further increase the share of German assets in Berlin (44% of the portfolio vs. 28% at end-2014) – one of Germany's most dynamic cities, and boost the Group's organic growth potential. In 2015, rental income from the Berlin portfolio thus increased 4.4% while its value grew 12% on a like-for-like basis.

On the strength of its selective investment strategy targeting prime city-centre assets, Foncière des Régions intends to push ahead with the quality-enhancing rotation of its German Residential assets over the coming months.

TAXATION

The following is a general description of certain withholding tax considerations relating to the Notes. It does not purport to be a complete analysis of all tax considerations relating to the Notes. Prospective purchasers of Notes should consult their own tax advisers as to which countries' tax laws could be relevant to acquiring, holding and disposing of Notes and receiving payments of interest, principal and/or other amounts under the Notes and the consequences of such actions under the tax laws of those countries. This summary is based upon the law as in effect on the date of this Prospectus and is subject to any change in law that may take effect after such date.

France

Withholding Tax

The following is an overview of certain withholding tax considerations that may be relevant to holders of the Notes who do not concurrently hold shares of the Issuer.

Payments of interest and other revenues made by the Issuer with respect to the Notes will not be subject to the withholding tax set out under Article 125 A III of the French *Code général des impôts* unless such payments are made outside France in a non-cooperative State or territory (*Etat ou territoire non coopératif*) within the meaning of Article 238-0 A of the French *Code général des impôts* (a **Non-Cooperative State**). If such payments under the Notes are made in a Non-Cooperative State, a 75 per cent. withholding tax will be applicable by virtue of Article 125 A III of the French *Code général des impôts* (subject to certain exceptions and to the more favourable provisions of an applicable double tax treaty).

Furthermore, in application of Article 238 A of the French *Code général des impôts*, interest and other revenues on such Notes will not (where otherwise deductible) be deductible from the Issuer's taxable income, if they are paid or accrued to persons established or domiciled in a Non-Cooperative State or paid in such a Non-Cooperative State (the **Deductibility Exclusion**). Under certain conditions, any such non-deductible interest and other revenues may be recharacterised as constructive dividends pursuant to Articles 109 *et seq.* of the French *Code général des impôts*, in which case such non-deductible interest and other revenues may be subject to the withholding tax set out under Article 119 *bis* of the French *Code général des impôts*, at a rate of 30 per cent. or 75 per cent. (subject to the more favourable provisions of an applicable double tax treaty).

Notwithstanding the foregoing, neither the 75 per cent. withholding tax set out under Article 125 A III of the French *Code général des impôts* nor the Deductibility Exclusion will apply in respect of the Notes if the Issuer can prove that the principal purpose and effect of the issue of the Notes was not that of allowing the payments of interest or other revenues to be made in a Non-Cooperative State (the **Exception**). Pursuant to the *Bulletin Officiel des Finances Publiques-Impôts* BOI-INT-DG-20-50-20140211 (n°550 and 990), BOI-RPPM-RCM-30-10-20-40-20140211 (n°70 and 80) and BOI-IR-DOMIC-10-20-20-60-20150320 (n°10), the Notes will benefit from the Exception without the Issuer having to provide any proof of the purpose and effect of the issue of the Notes, if the Notes are *inter alia*:

- (i) admitted to trading on a regulated market or on a French or foreign multilateral securities trading system provided that such market or system is not located in a Non-Cooperative State, and the operation of such market is carried out by a market operator or an investment services provider, or by such other similar foreign entity, provided further that such market operator, investment services provider or entity is not located in a Non-Cooperative State; or
- (ii) admitted, at the time of their issue, to the clearing operations of a central depository or of a securities clearing and delivery and payments systems operator within the meaning of Article L.561-2 of the French *Code monétaire et financier*, or of one or more similar foreign depositories or operators provided that such depository or operator is not located in a Non-Cooperative State.

Consequently, payments of interest and other revenues made by the Issuer under the Notes are not subject to the withholding tax set out under Article 125 A III of the French *Code général des impôts* and the Deductibility Exclusion does not apply to such payments.

Pursuant to Article 125 A of the French *Code général des impôts*, subject to certain limited exceptions, interest received by individuals who are fiscally domiciled (*domiciliés fiscalement*) in France is subject to a 24 per cent. withholding tax, which is deductible from their personal income tax liability in respect of the year in which the payment has been made. Social contributions (CSG, CRDS and other related contributions) are also levied by way of withholding tax at an aggregate rate of 15.5 per cent. on such interest received by individuals who are fiscally domiciled (*domiciliés fiscalement*) in France.
