This prospectus constitutes a prospectus (the **Prospectus**) for the purposes of Article 5.3 of Directive 2003/71/EC, as amended by Directive 2010/73/EC (the **2010 PD Amending Directive**) to the extent that the 2010 PD Amending Directive has been implemented in France (the **Prospectus Directive**). Application has been made to the *Autorité des marchés financiers* (**AMF**) for approval of this Prospectus in its capacity as competent authority pursuant to Article 212-2 of its *Règlement Général* which implements the Prospectus Directive.

The €500,000,000 3.875 per cent. Notes due January 2018 (the **Notes**) of Foncière des Régions (the **Issuer** or **Foncière des Régions**) will be issued outside the Republic of France and will mature on 16 January 2018.

Interest on the Notes will accrue at the rate of 3.875 per cent. per annum from 16 October 2012 (the **Issue Date**) and will be payable in Euro annually in arrear on 16 January in each year, commencing on 16 January 2014. Payments of principal and interest on the Notes will be made without deduction for or on account of taxes of the Republic of France (See “Terms and Conditions of the Notes – Taxation”).

Unless previously purchased and cancelled in accordance with the terms and conditions of the Notes, the Notes may not be redeemed prior to 16 January 2018. If a Change of Control occurs, each Noteholder will have the option to require the Issuer to redeem or repurchase all or part of the Notes held by such Noteholder on the Optional Redemption Date at their principal amount together with interest accrued up to but excluding such date of redemption or repurchase all as defined and more fully described in “Terms and Conditions of the Notes – Redemption and Purchase – Redemption at the option of Noteholders following a Change of Control”.

Application has been made to NYSE Euronext Paris S.A. for the Notes to be listed and admitted to trading on Euronext Paris. The Notes are rated BBB- by Standard & Poor's Ratings Services (**S&P**). The long-term debt of the Issuer is rated BBB- by S&P. RISK FACTORS

The following are certain risk factors of the offering of the Notes of which prospective investors should be aware. The Issuer believes that the following factors may affect its ability to fulfil its obligations under the Notes. All of these factors are contingencies which may or may not occur and the Issuer is not in a position to express a view on the likelihood of any such contingency occurring. Factors which the Issuer believes may be material for the purpose of assessing the market risks associated with Notes are also described below. The Issuer believes that the factors described below represent the principal risks inherent in investing in Notes, but the inability of the Issuer to pay interest, principal or other amounts on or in connection with any Notes may occur for other reasons and the Issuer do not represent that the statements below regarding the risks of holding any Notes are exhaustive. Prospective investors should make their own independent evaluations of all risk factors and should also read the detailed information set out elsewhere in this Prospectus (including any documents incorporated by reference herein) and reach their own views prior to making any investment decision.

The terms defined in "Terms and Conditions of the Notes" shall have the same meaning where used below.

Risks related to the Issuer and its business

The risks described below are those identified by the Issuer that could have an adverse effect on the Issuer's situation. Additional risks, which are either not currently known or not considered likely to materialise, as at the date of this Prospectus may also exist, such additional risks could materially and adversely affect the Issuer's business, financial condition or the results of its operations. The occurrence of one or more of these risks could also have an adverse effect on the Issuer's situation.

Risks Relating to the Issuer's Business and Strategy

Risks linked to the economic environment

The Issuer's business, financial situation, results, prospects and asset valuation are influenced by domestic and international economic conditions, in particular by the level of economic growth, interest rates, the unemployment rate in France, the method used in calculating rent indexation, and changes in various indices, as well as by available investment alternatives (financial assets, indices, etc.). Changes or a deterioration in economic conditions could have a significant adverse impact on the Issuer's business, financial situation and results, particularly through: (i) decline in demand for its corporate real-estate projects, (ii) decline in the occupancy rate and in the leasing or re-leasing price of its real-estate assets, and (iii) decline in the valuation of its assets.

Risks linked to changes in the real-estate market

The Issuer operates primarily in the office property sector, and its business is subject to the vagaries of this sector of activity, and in particular to its cyclical nature. The value of the Issuer's assets depends on the office property market situation, which is subject to fluctuations, particularly in terms of rental income and property prices, according to the balance between supply and demand and the general economic situation, with its hard-to-predict cycles. The strategy defined and the policies implemented by the Issuer seek to limit the negative effects of these risks. The Issuer may not always be in a position to implement its rental or leasing strategy, its investments and, where applicable, its disposals at a favourable time or under favourable market conditions, or it may be forced to defer such strategy and investments depending on the fluctuations to which the property market may be subjected. In general, an unfavourable change in the property market could have a negative effect both on the Issuer's investment policy and on the appraisal of its portfolio, as well as on its activities, its financial situation, its results or its outlook. In particular, a declining property market could have a significant negative impact on the Issuer's financing terms.

Risks linked to the competition

The Issuer faces strong competition in conducting its asset and rental business activities. The Issuer competes with a large number of players in its asset and development activity. Some of its competitors may have more financial strength, more assets, or in certain cases, may benefit from better regional or local implementation than the Issuer. Such factors may offer major market players a chance to participate in tender offers, particularly those involving development operations, under financial conditions that do not necessarily match the investment criteria the Issuer set for itself. This could lead to uncertainties regarding growth prospects for its activity. The Issuer's rental activity is likewise subject to strong competitive pressure. Competition may come in particular from current or future developments in the same market segment and in the same region, or rental offerings under financial conditions that do not match the Issuer's objectives. In particular, the development by competitors of new offices located near existing Issuer sites, as well as competing office lease renewals or extensions, could have a negative impact on its activity, its financial situation and its results.

Risks linked to lease renewals and rental of property assets

On expiration of existing leases, the Issuer may be unable to renew them or rent the assets involved within lead times and under conditions as favourable as those of current leases, particularly due to macroeconomic and property market conditions. In particular, the Issuer may not be in a position to draw enough attractive tenants or companies to its offices, and may not succeed at maintaining a satisfactory occupancy rate or rental income, which could have a negative impact on its activity, its financial situation and its results.

Risks linked to tenant insolvency

The Issuer's ability to collect rent depends on its tenants' solvency. Tenant insolvency risks and their impact on the Issuer's results are greater in office real estate given the relative size of each tenant. Although the Issuer's customer portfolio is diversified, the credit standard of tenants is taken into consideration by the Issuer before signing its leases, and the Issuer has long-term partnerships with major tenants, payment defaults or delays that might affect the Issuer's results cannot be ruled out.

Risks linked to asset valuation

The Group books its investment properties at fair value in accordance with the option offered under the IAS 40 standard. Fair value of an investment property is the amount for which an asset could be exchanged between well-informed, consenting parties acting under normal conditions of competition. It reflects the actual state of the market and prevailing circumstances on the accounts date, and not of those on a past or future date.

The market value estimated by appraisers depends on their appreciation of the relationship between supply and demand in the real estate markets, interest rates, the general economic situation and numerous other factors that can vary significantly in case of changes in the economic scenario.

In addition to the assets in operation and buildings under construction, the property assets of the Issuer consist of land and sometimes real estate reserves whose valuation depends on the vagaries of potential real estate projects that could be developed there and on assumptions and projections by the Issuer.

The net asset value calculated by the Issuer could vary significantly in case of any variation in the value estimated by the appraisers.

A description of the risk related to asset value variations can be found in paragraph 3.2.2.1 of Chapter 3 of the 2011 Reference Document (as defined in Section "Documents Incorporated By Reference") and in paragraph 2.1 in the Annex to the consolidated accounts as at 30 June 2012 in paragraph 10.2 of the

Update of the 2011 Reference Document (as defined in Section "Documents Incorporated By Reference") below).

A summary of the appraisals is given in paragraph 1.9.4 of the 2011 Reference Document.

Risks linked to geographical and sector-specific concentration

A significant portion of the Issuer's business is concentrated in the Paris region and in large regional metropolitan areas in France. Consequently, economic conditions and real-estate risks, or risks of any other nature, affecting the Paris region and the large regional metropolitan areas in France could have a significant effect on the Issuer's activity, financial situation or results. As at 31 December 2011, offices accounted for 54% of the Issuer's portfolio (as a percentage of rental income, Group share). A deterioration in conditions of the office leasing market in the Paris region and in large regional metropolitan areas in France could have a negative impact on the Issuer's activity, financial situation or results.

Risks linked to development of new real estate assets

Through certain of its subsidiaries, Foncière des Régions performs development activities for its own account or the account of its subsidiaries.

In this type of activity, risks could arise resulting from different factors, the most including construction cost overruns, longer-than-planned construction phase, technical difficulties or delays due to the complexity of certain projects or construction material price increases, failure to obtain administrative authorisations, lack of third-party consent, impossibility of securing financing at interesting conditions for their projects, etc.

Initial costs (eg the cost of studies) cannot generally be deferred or cancelled in case of delays or failure to carry out a project. These risks can thus entail delays, or even the failure to deliver said projects or having to make them at higher costs than initially expected, which could affect the Group's results.

Acquisition risk

The acquisition of real estate assets or companies that hold them is part of Foncière des Régions's growth strategy. This policy involves risks, notably:

Foncière des Régions could overestimate the expected yield of assets and consequently buy them at a price that is too high given the financing needed for such acquisitions, or be unable to acquire them at satisfactory conditions, particularly in case of acquisitions made as part of a bidding procedure or in periods of high economic volatility or uncertainty. The purchased assets could also have latent defects, especially as regards environmental compliance terms, or non-conformities not covered by the warranties given in the purchase contract. The goal of the comprehensive due diligence performed before each acquisition with the aid of external specialised consultants is to keep these risks to a minimum.

Risks linked to international exposure

Foncière des Régions has significant equity interests in companies that are active in Italy and, to a lesser extent, in Germany, Luxembourg and Belgium. Some of these countries may present higher risk profiles than those found in the principal markets. The economic and political context may become less solid and less stable, and regulatory concerns and entry barriers less favourable. The country risk could have a negative effect on Foncière des Régions's operating income and financial situation. The breakdown of the Group's business and tracking of performance between France and Italy are detailed in section 6 of the consolidated accounts, in Chapter 3 of the 2011 Reference Document.

Financial Risks

Liquidity risk

Foncière des Régions's strategy depends on its ability to raise financial resources, either by borrowing or through equity, in order to finance its investments and acquisitions, and refinance debts on maturity. Under the SIIC regime, Foncière des Régions is required to distribute a significant part of its profits. Therefore, it relies to a great extent on debt to finance its growth. This means of financing may not as advantageous in the future, or its cost may increase. This situation could in particular arise in case of crises in the capital or equity markets, events affecting the real estate sector, restrictions imposed by credit agreement covenants, or any change in Foncière des Régions's activity, financial situation or shareholder structure that may have an influence on the perception that investors or lenders have of its credit worthiness or the appeal of investing in the Group.

Foncière des Régions is also exposed to general risks associated to all debt, particularly the risk of insufficient cash flows to assure debt service. Such a shortage could involve an acceleration or prepayment, and if the debt is collateralised, enforcement of the guarantee and, where applicable, the seizure of the assets.

For more information, please see paragraphs 3.2.2.2 and 3.2.4.12.1 in Chapter 3 of the 2011 Reference Document and paragraph 2.2 in the Annex to the consolidated accounts as at 30 June 2012 in paragraph 10.2 of the Update of the 2011 Reference Document.

Risks linked to covenants and other undertakings stipulated in certain credit agreements

The credit agreements entered into by Foncière des Régions contain, in addition to the usual covenants and undertakings, other covenants requiring compliance with specific financial ratios, such as those set out in paragraph 3.2.4.12.4 of Chapter 3 of the 2011 Reference Document. If Foncière des Régions were to reach one of its financial undertakings and failed to remedy such breach within the contractually stipulated time period, the lenders could demand early repayment of the debt and possibly seize the assets in question if the debt is collateralised. Certain loan agreements also have cross-default clauses allowing lenders to demand the early repayment of sums due in the event that Foncière des Régions fails to meet the undertakings contained in other credit agreements (and fails to remedy this default within the specified time periods). Consequently, any failure to meet its financial undertakings could have an adverse impact on Foncière des Régions's financial situation, its results, and its flexibility in conducting its business and pursuing its development (which, for example, could hinder or even stop certain acquisitions).

Rate risk

Foncière des Régions's significant level of indebtedness exposes it to the risk of variation of interest rates and financial costs it bears on the floating rate part of its debt, which could increase significantly. A rise in interest rates would have a negative impact on the valuation of Foncière des Régions's assets, as the yield rates applied by real estate appraisers to commercial leases are partly determined depending on the interest rates.

Foncière des Régions uses derivatives to hedge its interest rate risks, including swaps, allowing it to hedge a fixed or variable rate on a debt with a variable or fixed rate, respectively. Nevertheless, this type of strategy cannot completely eliminate risks linked to interest rate fluctuations.

The use of interest rate hedge agreements could expose Foncière des Régions to additional risks, particularly the risk of default by the counterparties to such agreements, which could entail payment defaults or delays that could have a negative impact on Foncière des Régions's results.

For more information, please see paragraphs 3.2.2.3 and 3.2.4.12.3 in Chapter 3 of the 2011 Reference Document and paragraph 2.3 in the Annex to the consolidated accounts as at 30 June 2012 in paragraph 10.2 of the Update of the 2011 Reference Document.

Financial counterparty risk

Given the contractual relations between Foncière des Régions and its subsidiaries and their respective financial partners, they are exposed to counterparty risks. The failure by one of the counterparties to honour their undertakings could have a significant adverse impact on the Group.

This risk primarily concerns hedge instruments underwritten by the Group. Any default on the part of a counterparty could require that an existing hedge be replaced at the current market rates.

The counterparty risk is limited by the fact that Foncière des Régions is structurally a borrower. The risk is therefore essentially limited to investments made by the Group, and to group counterparties in derivative transactions. The Issuer continually monitors its exposure to financial counterparty risk.

Risks linked to securities issued by Foncière des Régions

Stock markets sometimes undergo significant fluctuations that may or may not be linked to the results of companies whose securities are traded on the markets.

The prices of Issuer's securities (both of shares and of ORNANE bonds (i.e. bonds redeemable in shares)) may be volatile and may be affected by events involving Foncière des Régions, its competitors or the financial markets in general.

For a complete description of the risks involving ORNANE bonds, see the prospectus approved by the AMF on 13 May 2011 available at the following address on the Issuer's website: <http://www.fdr.fr/filtre/france/2493>.

Legal, tax and regulatory risks

Foncière des Régions must comply with multiple laws and regulations, including urban planning regulations, building permits and authorisations for operation, health and safety regulations (particularly for assets open to the public), environmental regulations, legislation on leases, labour regulations, tax and corporate law (particularly provisions governing SIICs (*Sociétés d'Investissement Immobilier Cotées*, listed property investment companies)).

Changes in the regulatory or legal framework and/or the loss of advantages linked to a statute or authorisation may force Foncière des Régions to adjust its business, assets or strategy, which could have a significant adverse impact on the value of its real estate portfolio and/or on its results, through increased expenses, and/or a slowdown in, or even a halt to, the development of certain investments or rental activities.

Due to the inherent complexity and form requirements of the regulations involved in the taxation of the business in which Foncière des Régions operates, the Issuer may be exposed to tax risk if it breaches these regulations. In such cases, Foncière des Régions could be subject to tax adjustments and disputes.

Foncière des Régions and its subsidiaries are also exposed to possible changes in tax rules in the countries in which they operate. For more information on the recent changes to the tax environment in France, please see paragraph 2.9.1 in the Annex to the consolidated accounts as at 30 June 2012 in paragraph 10.2 of the Update of the 2011 Reference Document.

In the normal course of its activities, the Group may become involved in legal proceedings (eg concerning its contractual liability, its liability as an employer, or its criminal liability) and may be subject to tax inspections and administrative procedures. Each of these risks is associated with a risk to reputation and/or image, particularly in case of acting against business ethics or good business practices. A summary

of the main disputes is given in paragraph 1.15.4 of the 2011 Reference Document and in paragraph 2.9.2 in the Annex to the consolidated accounts as at 30 June 2012 in paragraph 10.2 of the Update of the 2011 Reference Document.

Risks Relating to Specific Regulations

Lease regulations

In France, the law on commercial leases imposes certain restrictions on the lessor. Contractual provisions relating to term, termination, renewal, deposit, and rent indexation are governed by general commercial law which restricts the flexibility of owners to increase rent in line with market changes and thereby to maximise their rental income.

In addition, tenants have the option of vacating premises at the lease expiry date as well as, in principle, at the end of any three-year period unless explicitly agreed otherwise.

Changing the rules that apply to commercial leases, especially in terms of term, rent indexation and caps, or the calculation of eviction compensation for tenants, could adversely impact the valuation of the Issuer's assets, results, business activity or financial position.

Risks relating to the SIIC real estate trust status

Foncière des Régions is subject to the SIIC (*Sociétés d'Investissement Immobilier Cotées*, listed property investment companies) tax regime and as such is not subject to corporate tax. These provisions require various conditions to be satisfied, which have been continually modified by successive governments in particular as part of budget laws and are also subject to interpretation by the tax authorities. Opting for the SIIC tax regime involves the immediate obligation to pay an exit tax at the reduced rate of 19% on unrealised capital gains relating to properties and securities of entities not subject to corporation tax. Exit tax is payable over four years, in four instalments, starting with the year the option is taken up. In return, the Issuer undertakes to payout 85% of its profits generated by the leasing of its real estate assets, 50% of capital gains generated on its disposals and 100% of dividends received from SIIC-status subsidiaries.

If Foncière des Régions exits the SIIC system in the next ten years it will need to pay additional tax which may adversely impact its results and financial position.

Environmental Risks

As a property owner and manager, Foncière des Régions is required to abide by applicable environmental regulations, and non-compliance with these environmental regulations, or the need to comply with new environmental regulations that may be adopted, could prompt rising costs or hinder development of group activities, thus affecting on Foncière des Régions's results or resulting in its civil liability.

Potential risks in this area include:

- sanitary risks or pollution (particularly land and subsoil) problems that could generate significant extra costs and delays linked to the search for and removal of toxic substances or materials when engaging in investment projects or building renovations
- environmental damages, safety hazards and more generally the non compliance with legal and regulatory obligations may result in civil (and, if applicable, criminal) liability and have adverse consequences for the Issuer's image.

For more information, please see paragraphs 2.2.3, 2.3.3 and 2.4.3 of Chapter 2 of the 2011 Reference Document.

Risks Linked to the Cost and Availability of Adequate Insurance Cover

The Issuer considers that the nature of the covered risks and the guaranteed amounts are in line with regular practice in its business sector. However, it could face increased costs from its insurance policies or sustain losses that may not be fully covered by the insurance in place. In addition, given the size of the assets to be insured and the level of insurance cover sought, it may not be able to obtain adequate insurance cover at an acceptable cost, or it may even be unable to cover all or part of certain risks. The cost, or in case of an insurance event, the unavailability of adequate insurance cover, could affect the valuation of the Issuer's assets, its business, its financial situation and its results.

Risks related to the Notes

The Notes may not be a suitable investment for all investors

The Notes may not be a suitable investment for all investors. Each potential investor in the Notes must determine the suitability of that investment in light of its own circumstances. In particular, each potential investor should:

- (i) have sufficient knowledge and experience to make a meaningful evaluation of the Notes, the merits and risks of investing in the Notes and the information contained or incorporated by reference in this Prospectus or any applicable supplement;
- (ii) have access to, and knowledge of, appropriate analytical tools to evaluate, in the context of its particular financial situation, an investment in the Notes and the impact the Notes will have on its overall investment portfolio;
- (iii) have sufficient financial resources and liquidity to bear all of the risks of an investment in the Notes, including where the currency for principal or interest payments is different from the potential investor's currency or where the currency for principal or interest payments is different from the currency in which such potential investor's financial activities are principally denominated;
- (iv) understand thoroughly the terms of the Notes and be familiar with the behaviour of any relevant financial markets; and
- (v) be able to evaluate (either alone or with the help of a financial adviser) possible scenarios for economic, interest rate and other factors that may affect its investment and its ability to bear the applicable risks.

Independent Review and Advice

Each prospective investor in the Notes must determine, based on its own independent review and such professional advice as it deems appropriate under the circumstances, that its acquisition of the Notes is fully consistent with its financial needs, objectives and condition, complies and is fully consistent with all investment policies, guidelines and restrictions applicable to it and is a fit, proper and suitable investment for it, notwithstanding the clear and substantial risks inherent in investing in or holding the Notes. A prospective investor may not rely on the Issuer or the Managers or any of their respective affiliates in connection with its determination as to the legality of its acquisition of the Notes or as to the other matters referred to above.

Legality of Purchase

Neither the Issuer, the Managers nor any of their respective affiliates has or assumes responsibility for the lawfulness of the subscription or acquisition of the Notes by a prospective investor in the Notes, whether under the laws of the jurisdiction of its incorporation or the jurisdiction in which it operates (if different), or for compliance by that prospective investor with any law, regulation or regulatory policy applicable to it.

A Noteholder's actual yield on the Notes may be reduced from the stated yield by transaction costs

When Notes are purchased or sold, several types of incidental costs (including transaction fees and commissions) are incurred in addition to the current price of the security. These incidental costs may significantly reduce or even exclude the profit potential of the Notes. For instance, credit institutions as a rule charge their clients for own commissions which are either fixed minimum commissions or pro-rata commissions depending on the order value. To the extent that additional – domestic or foreign – parties are involved in the execution of an order, including but not limited to domestic dealers or brokers in foreign markets, Noteholders must take into account that they may also be charged for the brokerage fees, commissions and other fees and expenses of such parties (third party costs). In addition to such costs directly related to the purchase of securities (direct costs), Noteholders must also take into account any follow-up costs (such as custody fees). Investors should inform themselves about any additional costs incurred in connection with the purchase, custody or sale of the Notes before investing in the Notes.

Risks related to the market generally

Set out below is a brief description of the principal market risks, including liquidity risk, exchange rate risk, interest rate risk and credit risk:

The secondary market generally

The Notes may have no established trading market when issued, and one may never develop. If a market does develop, it may not be very liquid. Therefore, investors may not be able to sell their Notes in the secondary market in which case the market or trading price and liquidity may be adversely affected or at prices that will provide them with a yield comparable to similar investments that have a developed secondary market.

The trading market for debt securities may be volatile and may be adversely impacted by many events

The market for debt securities issued by the Issuers is influenced by economic and market conditions and, to varying degrees, market conditions, interest rates, currency exchange rates and inflation rates in other European and other industrialised countries. There can be no assurance that events in France, Europe or elsewhere will not cause market volatility or that such volatility will not adversely affect the price of Notes or that economic and market conditions will not have any other adverse effect.

Exchange rate risks and exchange controls

The Issuer will pay principal and interest on the Notes in Euro. This presents certain risks relating to currency conversions if an investor's financial activities are denominated principally in a currency or currency unit (the **Investor's Currency**) other than Euro. These include the risk that exchange rates may change significantly (including changes due to devaluation of Euro or revaluation of the Investor's Currency) and the risk that authorities with jurisdiction over the Investor's Currency may impose or modify exchange controls. An appreciation in the value of the Investor's Currency relative to the Euro would decrease (i) the Investor's Currency-equivalent yield on the Notes, (ii) the Investor's Currency-equivalent value of the principal payable on the Notes and (iii) the Investor's Currency-equivalent market value of the Notes.

Government and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate. As a result, investors may receive less interest or principal than expected, or no interest or principal.

Interest rate risks

The Notes bearing interest at a fixed rate, investment in the Notes involves the risk that subsequent changes in market interest rates may adversely affect the value of the Notes.

Credit risk

The value of the Notes will also depend on the credit worthiness of the Issuer. If the credit worthiness of the Issuer deteriorates, the value of the Notes may decrease and investors may lose all or part of their investment.

The Notes may be redeemed prior to maturity

In the event that the Issuer would be obliged to pay additional amounts payable in respect of any Notes due to any withholding as provided in Condition 5(b), the Issuer may redeem all outstanding Notes in accordance with such Terms and Conditions.

Exercise of put option or notice of event of default in respect of certain Notes may affect the liquidity of the Notes in respect of which such put option is not exercised or a notice of event of default is not given

Depending on the number of Notes in respect of which the put option pursuant to a Change of Control (as more fully described in Condition 5(c)) is exercised or in respect of which notice of an event of default is given (as provided in Condition 8), any trading market in respect of those Notes in respect of which such put option is not exercised or in respect of which notice of an event of default is not given may become illiquid.

Market value of the Notes

The value of the Notes depends on a number of interrelated factors, including economic, financial and political events in France or elsewhere, including factors affecting capital markets generally and the stock exchanges on which the Notes are traded. The price at which a holder of Notes will be able to sell the Notes prior to maturity may be at a discount, which could be substantial, from the issue price or the purchase price paid by such purchaser.

Credit Rating may not reflect all risks

The Notes are rated BBB- by S&P. The rating assigned by S&P to the Notes may not reflect the potential impact of all risks related to structure, market, additional factors discussed above, and other factors that may affect the value of the Notes. A rating is not a recommendation to buy, sell or hold securities and may be revised or withdrawn by S&P at any time.

Change of law

The Terms and Conditions of the Notes are based on the laws of France in effect as at the date of this Prospectus. No assurance can be given as to the impact of any possible judicial decision or change to the laws of France or administrative practice or the official application or interpretation of French law after the date of this after the date of this Prospectus. Furthermore, the Issuer operates in a heavily regulated environment and has to comply with extensive regulations in France and elsewhere. No assurance can be given as to the impact of any possible judicial decision or change to laws or administrative practices after the date of this Prospectus.

Modification and waiver

The conditions of the Notes contain provisions for calling meetings of Noteholders to consider matters affecting their interests generally. These provisions permit defined majorities to bind all Noteholders including Noteholders who did not attend and vote at the relevant meeting and Noteholders who voted in a manner contrary to the majority.

French insolvency law

Under French insolvency law, holders of debt securities are automatically grouped into a single assembly of holders (the **Assembly**) in order to defend their common interests if a preservation (*procédure de sauvegarde* or *procédure de sauvegarde financière accélérée*) or a judicial reorganisation procedure (*procédure de redressement judiciaire*) is opened in France with respect to the Issuer. The Assembly comprises holders of all debt securities issued by the Issuer (including the Notes) regardless of their governing law. The Assembly deliberates on the proposed safeguard (*projet de plan de sauvegarde* or *projet de plan de sauvegarde financière accélérée*) or judicial reorganisation plan (*projet de plan de redressement*) applicable to the Issuer and may further agree to:

- increase the liabilities (*charges*) of holders of debt securities (including the Noteholders) by rescheduling due payments and/or partially or totally writing off receivables in form of debt securities;
- establish an unequal treatment between holders of debt securities (including the Noteholders) as appropriate under the circumstances; and/or
- decide to convert debt securities (including the Notes) into securities that give or may give right to share capital.

Decisions of the Assembly will be taken by a two-third majority (calculated as a proportion of the debt securities held by the holders attending such Assembly or represented thereat). No quorum is required to convoke the Assembly.

The procedures, as described above or as they will or may be amended, could have an adverse impact on holders of the Notes seeking repayment in the event that the Issuer or its subsidiaries were to become insolvent.

For the avoidance of doubt, the provisions relating to the Representation of the Noteholders described in this Prospectus in Condition 9 will not be applicable in these circumstances.

Taxation

Potential purchasers and sellers of the Notes should be aware that they may be required to pay taxes or other documentary charges or duties in accordance with the laws and practices of the country where the Notes are transferred or other jurisdictions. In some jurisdictions, no official statements of the tax authorities or court decisions may be available for innovative financial instruments such as the Notes. Further, a Noteholder's effective yield on the Notes may be diminished by the tax impact on that Noteholder of its investment in the Notes.

Potential investors are advised not to rely upon the tax summary contained in this Prospectus but to ask for their own tax adviser's advice on their individual taxation with respect to the acquisition, holding, sale and redemption of the Notes. Only these advisors are in a position to duly consider the specific situation of each potential investor. This investment consideration has to be read in connection with the taxation sections of this Prospectus.

Each prospective investor should consult its own advisers as to legal, tax and related aspects of an investment in the Notes.

EU Savings Directive

On 3 June 2003, the European Council of Economic and Finance Ministers adopted a directive 2003/48/CE regarding the taxation of savings income in the form of interest payments (the **Savings Directive**). The Savings Directive requires Member States, subject to a number of conditions being met, to provide to the tax authorities of other Member States details of payments of interest and other similar income made by a paying agent located within their jurisdiction to, or for the benefit of, an individual resident in that other Member State (or certain limited types of entities established in that other Member State), except that, for a transitional period, Luxembourg and Austria will instead withhold an amount on interest payments unless the relevant beneficial owner of such payment elects otherwise and authorises the paying agent to disclose the above information (see "Taxation").

If a payment were to be made or collected through a Member State which has opted for a withholding system and an amount of, or in respect of tax were to be withheld from that payment, neither the Issuer nor any paying agent nor any other person would be obliged to pay additional amounts with respect to any Note as a result of the imposition of such withholding tax.

The European Commission has proposed certain amendments to the Savings Directive which may, if implemented, amend or broaden the scope of the requirements described above.

2 Status and Negative Pledge

(a) Status of the Notes

The obligations of the Issuer under the Notes in respect of principal, interest and other amounts, constitute direct, general, unconditional, unsubordinated and unsecured obligations of the Issuer (*engagements chirographaires*), and rank *pari passu* without any preference amongst themselves and with all other unsecured and unsubordinated indebtedness and guarantees (subject to exceptions imposed by French law), present or future, of the Issuer.

(b) Negative Pledge

The Issuer agrees that so long as any of the Notes remains outstanding, it will not create or permit to subsist any mortgage, charge, pledge, lien or other form of encumbrance or security interest which would constitute a *sûreté réelle* or its equivalent under any applicable legislation upon all or part of its business (*fonds de commerce*), assets or revenues, present or future, to secure (i) any Bond Indebtedness (as defined below) other than Securitised Bond Indebtedness (as defined below)

or (ii) any guarantee of or indemnity in respect of any Bond Indebtedness (other than Securitised Bond Indebtedness) (whether any such mortgage, charge, pledge, lien or other form of encumbrance or security interest existed before or after the issuance of the Notes) unless the obligations of the Issuer under the Notes are equally and rateably secured therewith so as to rank *pari passu* with such Bond Indebtedness or the guarantee or indemnity thereof.

This undertaking relates exclusively to the issuance of Bond Indebtedness and in no way affects the Issuer's ability to dispose of its assets or to otherwise grant any security interest over or in respect of such assets in any other circumstances, without prejudice to Condition (3).

For this purpose of the Condition:

- (i) **outstanding** means, in relation to the Notes, all the Notes issued other than: (a) those which have been redeemed in accordance with the Conditions, (b) those in respect of which the date for redemption in accordance with the Conditions has occurred and the redemption monies (including all interest accrued on such Notes to the date for such redemption and any interest payable under Condition 4 after such date) have been duly paid to the Fiscal Agent, (c) those which have been purchased and cancelled as provided in Condition 5 and (d) those in respect of which claims have become prescribed under Condition 11.
- (ii) **Bond Indebtedness** means any present or future indebtedness for borrowed money in the form of, or represented by, bonds (*obligations*) or other securities (including *titres de créances négociables*) which are, or are capable of being, quoted, admitted to trading or ordinarily dealt in any stock exchange, over-the counter or other securities market.
- (iii) **Securitised Bond Indebtedness** means any Bond Indebtedness of the Issuer incurred in respect of or in connection with any securitisation or similar financing arrangement relating to assets owned by the Issuer and where the recourse of the holders of such Bond Indebtedness against the Issuer is limited solely to such assets or any income generated therefrom.

3 Restriction on Secured Borrowings

The Issuer agrees that, so long as any of the Notes remains outstanding and except with the prior approval of the General Meeting (as defined under Condition 9) of the Noteholders, the Unsecured Revalued Assets Value (as defined below) shall not be less than the Relevant Debt (as defined below) at any time.

Appraisal Value means, with respect to any Person, the value of the total Real Estate Assets owned or held directly or indirectly by such Person (including through financial leases and including the Real Estate Assets used as operating properties) as it is shown in, or derived from, the latest consolidated financial statements of the Issuer.

Assets means for any Person all or any part of its property, assets, revenues (including any right to receive revenues) and uncalled capital;

Financial Indebtedness means at any time any obligation for the payment or repayment of money, whether present or future, in respect of:

- (i) any outstanding principal amount (together with any fixed or minimum premium payable on final repayment) of all moneys borrowed (with or without security);
- (ii) any amounts raised by acceptance or under any acceptance credit opened by a bank or other financial institution;

- (iii) any lease, sale-and-lease-back, sale-and-repurchase or hire purchase contracts or arrangements which is, in accordance with the relevant accounting principles at the time such contracts or arrangements were entered into, treated as financial debt (*emprunts et dettes financières*);
- (iv) any amount raised pursuant to any issuance of shares or equivalent which are mandatorily redeemable (whether at final maturity or upon the exercise by the holder of such shares or equivalent of any option) prior to the Maturity Date;
- (v) any outstanding amount of the deferred purchase price of Real Estate Assets (as defined below) where payment (or, if payable in instalments, the final instalment) is due more than one year after the date of purchase of such Real Estate Asset; or
- (vi) any amount raised under any other transaction which is treated in accordance with the relevant accounting principles in the latest non-consolidated or consolidated balance sheet as financial debt (*emprunts et dettes financières*) (or, in the case of such amounts raised after the date of this Prospectus, would have been so treated had they been raised on or prior to such date);

provided that:

- (a) for purposes of computing the outstanding principal amount of any Financial Indebtedness in paragraphs (i) to (vi) above, any interest, dividends, commission, fees or the like shall be excluded save to the extent that they have been capitalised; and
- (b) no amount shall be included or excluded more than once in calculating the amount of principal outstanding in respect of any Financial Indebtedness.

DESCRIPTION OF THE ISSUER

The overview below is a summary of the description of the Issuer which is included in the 2011 Reference Document and the Update of the 2011 Reference Document incorporated by reference in the Prospectus and available on the website of the Issuer and on the website of the AMF.

General Information on the Issuer

History

In the early 2000s, Batipart, together with some French institutional investors, decided to create Foncière des Régions (the Issuer) to take advantage of structural changes in the real estate industry: i) a growing trend of French corporates outsourcing their real estate assets to focus on their core business, ii) developing office markets in the French regions, offering growth potential and attractive yield and iii) increasing investment needs from life insurance companies, that supported Foncière des Régions' development.

From 2001, the Issuer experienced a rapid development, thanks to a number of outsourcing transactions and the adoption of the SIIC status in 2003:

- Acquisitions of real estate assets from EDF, France Telecom, the *Commissariat à l'énergie atomique* (CEA, the French Atomic Energy Commission), Azur GMF, etc.
- Development of pure-play listed vehicles in each subsector, benefiting from Foncière des Régions asset management know-how: Foncière des Murs (hotel, healthcare and leisure premises, created in 2004), Foncière Développement Logements (residential assets in France and Germany, created in 2005), Foncière Europe Logistique (logistics assets, created in 2006).
- Foncière des Régions also acquired Bail Investissement (2005) and Beni Stabili (in 2007 through an exchange offer of Delfin shares) given the significant value creation potential within their respective portfolios and in order to reach a critical size.

From 2007-2008, following a period of fast development and given the worsening financial environment, Foncière des Régions decided to focus on strengthening its financial structure through asset disposals, scrip dividends (since 2009) and acquisitions by way of asset contribution (since 2009).

The shareholding of the Issuer changed in 2010-2011, with Delfin becoming the new reference shareholder of the Issuer following the acquisition of Batipart shares, together with Predica (Crédit Agricole Group) and Assurances du Crédit Mutuel (ACM). Foncière des Régions changed its governance for a Board of Directors. Jean Laurent was appointed Chairman of the Board.

Overview of the Issuer's Business and Strategy

Foncière des Régions portfolio totaled €9.5bn (group share data including economic exposure on Residential sector (Foncière Développement Logements)) as of 30 June 2012, unchanged compared to end 2011 on a like-for-like basis. The group portfolio is well diversified by geography with 67% located in France (Ile-de-France and main regional cities), 23% in Italy (mainly in the North), 9% in Germany and circa 1% in other countries. The main focuses of the group are on the office market in France and Italy (to a lesser extent) accounting for 67% of the portfolio and on the services market in France accounting for 9% of the portfolio. In both sectors, the group aims at developing long-term partnerships with high quality tenants, favoring long term firm leases.

Offices France

With a €4.1bn portfolio (as of 30 June 2012, group share data – €4.4bn consolidated data), Foncière des Régions is the second largest French office property owner. 75% of its portfolio is located in Ile-de-France and 25% in the main regional cities. The French office market is one of the largest and most attractive European markets, with low vacancy rates, low cyclicity and significant liquidity. In terms of take-up, Ile-de-France accounts for circa 2/3 of the market, however French regions historically offered higher yield with lower cyclicity. In the Paris region, the group aims at benefiting from the trend of large corporates moving from Paris' central business district to the inner ring, with tailored real estate solutions (Dassault Systèmes in Velizy, Suez Environnement in La Défense, Thalès in Vélizy – upcoming).

Foncière des Régions' portfolio has been historically built through outsourcing transactions from large corporates such as France Telecom, EDF or Eiffage. Since then, Foncière des Régions developed with these tenants strong partnership strategy aimed at accompanying them in the long term and enabling to optimize its asset management (high occupancy rate and long term leases). During the first half of year 2012, the French office portfolio reached a 95.9% occupancy rate, the rental income grew by 4.3% versus the first semester 2011 on a like-for-like basis and appraisal values grew by 0.5% versus fiscal year 2011.

Offices Italy

With a €2.2bn portfolio (as of 30 June 2012, group share data – €4.4bn consolidated data), Foncière des Régions, through Beni Stabili, is the leading listed office property owner in Italy. Beni Stabili's portfolio is well located, concentrated in Milan and Rome (73% of the core portfolio in Northern Italy) and made-up

of high quality buildings. Both markets are characterized by stable rents (especially in the prime offices markets) and stable vacancy rates given limited offering.

Foncière des Régions' portfolio delivers strong results in the first semester 2012 with a 97.2% occupancy rate, rental income like-for-like growth of 2.7% versus the first semester 2011 and appraisal values almost stable at -0.3% (like-for-like) versus fiscal year 2011.

Services

With a €0.8bn portfolio (as of 30 June 2012, group share data – €2.9bn consolidated data), Foncière des Régions, through Foncière des Murs, is the leading player in the services related sector. Its portfolio is mostly located in France (85% of the portfolio), in Ile-de-France and in the French regions. Foncière des Murs focuses on hotels (55% of the portfolio, mostly economy and midscale hotels rented to Accor), retail premises (24%), healthcare (12%) and leisure (9%). The hotel and services property market is rapidly developing as an independent asset class, attracting an increasing number of investors. Foncière des Murs has been a pioneer in services related market, achieving a number of outsourcing transactions with Accor or Korian.

The portfolio's occupancy rate stands at 100% as of 30 June 2012, with rental income like-for-like growth of 0.3% versus the first semester 2011 and appraisal value like-for-like growth of 1.2% versus fiscal year 2011.

Logistics

With a €1.0bn portfolio (as of 30 June 2012, group share data - €1.1bn consolidated data), Foncière des Régions owns a quality portfolio made of logistics platforms for €708m and €430m with the strategic site of Garonor and light industrial sites close to Paris. The portfolio occupancy rate reached 90.3% as of 30 June 2012 with rental income like-for-like stable versus the first semester 2012.

Foncière des Régions recently built up its stake in its logistics subsidiary (Foncière Europe Logistique) up to 99% in order to take it private for simplification purpose. Foncière des Régions aims at progressively divesting its logistics platform (of which €221m are under selling agreement) and repositioning remaining part of the portfolio.

Strategy and outlook

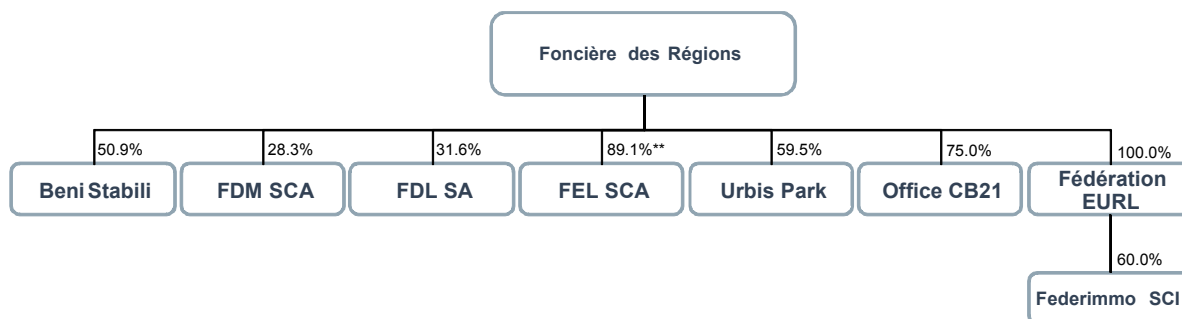

The group is implementing a long-term tenant partnership strategy that ensures long-term leases, high renewal rates and recurring attractive business opportunities. The group accompanies its tenants over the long term through outsourcing operations (e.g. France Telecom or Accor), development of highly efficient head office (e.g. Dassault Systemes or Suez Environnement) or offices reorganization / expansion (e.g. Thalès or Korian).

Foncière des Régions also focuses on asset rotation in order to accelerate portfolio quality improvement and create value: annual disposal of 5-10% of the portfolio, mostly non-core or mature assets, acquisitions focused on green assets in attractive locations and development focused on turnkey projects.

Organisation of the group

The group is organised around the parent company Foncière des Régions and is active in the French office market, two core subsidiaries Foncière des Murs are active in the French services related market and Beni Stabili is active in the Italian office market. Other subsidiaries include Foncière Europe Logistique (Logistics), Urbis (Parking) and Foncière Développement Logements (Residential).

- creation of a Board of Directors to replace previous Supervisory Board;
- creation of a Strategy and Investment committee, in addition to the already existing Audit and Appointment and Compensation committees ; and
- appointment of a new Chairman, Jean Laurent, and new Directors mostly independent ones (half of the Board has been changed).

Shareholder structure

Strategic investors, represented in the Issuer's Board of Directors, currently hold about half of the Issuer's share capital while the remaining part is composed of free float. Strategic investors include:

- Delfin, a holding company that belongs to the Del Vecchio family and used to be Beni Stabili's main shareholder, became shareholder of the Issuer following the acquisition of Beni Stabili in shares. Since then, Delfin continuously strengthened its shareholding to reach its current 29.7% stake; and
- institutional investors such as Covéa, ACM and Prédica (Crédit Agricole Group), that, as historical shareholders, have accompanied Foncière des Régions's development.

TAXATION

The following is a general description of certain tax considerations relating to the Notes. It does not purport to be a complete analysis of all tax considerations relating to the Notes, whether in France or elsewhere. Prospective purchasers of Notes should consult their own tax advisers as to which countries' tax laws could be relevant to acquiring, holding and disposing of Notes and receiving payments of interest, principal and/or other amounts under the Notes and the consequences of such actions under the tax laws of those countries. This summary is based upon the law as in effect on the date of this Prospectus and is subject to any change in law that may take effect after such date.

EU Savings Directive

On 3 June 2003, the European Council of Economics and Finance Ministers adopted Directive 2003/48/EC on the taxation of savings income (the **Savings Directive**). Pursuant to the Savings Directive, Member States are required, since 1 July 2005, to provide to the tax authorities of another Member State, inter alia, details of payments of interest within the meaning of the Savings Directive (interest, premium or other debt income) made by a paying agent located within their jurisdiction to, or for the benefit of, an individual resident in that other Member State or to certain limited types of entities established in that other Member State (the **Disclosure of Information Method**).

For these purposes, the term "paying agent" is defined widely and includes in particular any economic operator who is responsible for making interest payments, within the meaning of the Savings Directive, for the immediate benefit of individuals or certain entities.

However, throughout a transitional period, certain Member States (the Grand-Duchy of Luxembourg and Austria), instead of using the Disclosure of Information Method used by other Member States, unless the relevant beneficial owner elects for the Disclosure of Information Method, withhold an amount on interest payments. The rate of such withholding tax equals 35% until the end of the transitional period.

Such transitional period will end at the end of the first full fiscal year following the later of (i) the date of entry into force of an agreement between the European Community, following a unanimous decision of the European Council, and the last of Switzerland, Liechtenstein, San Marino, Monaco and Andorra, providing for the exchange of information upon request as defined in the OECD Model Agreement on Exchange of Information on Tax Matters released on 18 April 2002 (the **OECD Model Agreement**) with respect to interest payments within the meaning of the Savings Directive, in addition to the simultaneous application by those same countries of a withholding tax on such payments at the rate applicable for the corresponding periods mentioned above and (ii) the date on which the European Council unanimously agrees that the United States of America is committed to exchange of information upon request as defined in the OECD Model Agreement with respect to interest payments within the meaning of the Savings Directive.

A number of non-EU countries and dependent or associated territories have agreed to adopt similar measures (transitional withholding or exchange of information) with effect since 1 July 2005.

The European Commission has proposed certain amendments to the Savings Directive which may, if implemented, amend or broaden the scope of the requirements described above.

France

Withholding Tax

Following the introduction of the French *loi de finances rectificative pour 2009 n°3* (n°2009-1674 dated 30 December 2009) (the **Law**), payments of interest and other revenues made by the Issuer with respect to the Notes will not be subject to the withholding tax set out under Article 125 A III of the French *Code général des impôts* unless such payments are made outside France in a non-cooperative State or territory (*Etat ou territoire non coopératif*) within the meaning of Article 238-0 A of the French *Code général des impôts* (a **Non-Cooperative State**). If such payments under the Notes are made in a Non-Cooperative

State, a 50% withholding tax will be applicable by virtue of Article 125 A III of the French *Code général des impôts* (subject to certain exceptions and to the more favourable provisions of an applicable double tax treaty).

Furthermore, in application of Article 238 A of the French *Code général des impôts*, interest and other revenues on such Notes will no longer be deductible from the Issuer's taxable income, as from the fiscal years starting on or after 1 January 2011, if they are paid or accrued to persons established or domiciled in a Non-Cooperative State or paid in such a Non-Cooperative State (the **Deductibility Exclusion**). Under certain conditions, any such non-deductible interest and other revenues may be recharacterised as constructive dividends pursuant to Article 109 of the French *Code général des impôts*, in which case such non-deductible interest and other revenues may be subject to the withholding tax set out under Article 119 *bis* of the French *Code général des impôts*, at a rate of 30% or 55% (subject, if applicable, to the more favourable provisions of a tax treaty).

Notwithstanding the foregoing, the Law provides that neither the 50% withholding tax set out under Article 125 A III of the French *Code général des impôts* nor the Deductibility Exclusion will apply in respect of the Notes if the Issuer can prove that the principal purpose and effect of the issue of the Notes was not that of allowing the payments of interest or other revenues to be made in a Non-Cooperative State (the **Exception**). Pursuant to *Bulletin Officiel des Finances Publiques-Impôts* BOI-ANXX-000364-20120912 and BOI-ANXX-000366-20120912, the Notes will benefit from the Exception without the Issuer having to provide any proof of the purpose and effect of the issue of the Notes, if the Notes are:

- (i) admitted to trading on a regulated market or on a French or foreign multilateral securities trading system provided that such market or system is not located in a Non-Cooperative State, and the operation of such market is carried out by a market operator or an investment services provider, or by such other similar foreign entity, provided further that such market operator, investment services provider or entity is not located in a Non-Cooperative State; or
- (ii) admitted, at the time of their issue, to the clearing operations of a central depository or of a securities clearing and delivery and payments systems operator within the meaning of Article L.561-2 of the French *Code monétaire et financier*, or of one or more similar foreign depositories or operators provided that such depository or operator is not located in a Non-Cooperative State.

Consequently, payments of interest and other revenues made by the Issuer under the Notes are not subject to the withholding tax set out under Article 125 A III of the French *Code général des impôts* and the Deductibility Exclusion does not apply to such payments.
